Manage inventory.
Reduce cost.

An RFID Tracking, Management, and Inventory Replenishment System for Uniforms

UNIFORM MANAGER

The Most Renowned Asset Management System on the Market!

Uniform Manager is specifically designed to automate staff uniform operations in hotels, casinos, hospitals, resorts, theme parks and other uniform intensive industries. Our software interfaces with auto dispatch conveyors, and uniforms can be picked up 24 hours a day. Everything Uniform Manager provides is designed to save your operation time and money.

Easy Asset Tracking and Automated Processes

- ✔ **Reduction in Lost Garments:** Know at the click of a button who has what and how many.
- ✔ **Vendor Accountability:** Be sure that every uniform that goes out comes back to you.
- ✔ **Labor Reduction:** Process hundreds of garments per second without handling a single item.
- ✔ **Reduction in Purchasing:** If it never disappears, it doesn't need replaced.

RFID tags or barcodes are incorporated directly into garments, allowing for total automation of:

- ✔ **Assigning garments to employees**
- ✔ **Receiving soiled garments for laundering**
- ✔ **Tracking garments sent to and from cleaners**
- ✔ **Purchasing new garments and receiving ordered garments from suppliers**

Uniform Manager's extensive reporting capabilities include:

- ✔ **Employee Assignment Report:** Listing of all garments assigned and to whom.
- ✔ **Loaner Report:** Track garments on loan and not returned.
- ✔ **Required Purchases Report:** Keep inventory at required par level for smoother daily operations.
- ✔ **Inventory Detail Report:** Detailed listing of specific quantities in your inventory.

HERE'S THE FLOW:

GARMENT PICK-UP

2

All of the employee's garments are scanned at once.

UNIFORM ROOM

5

Clean garments are scanned & received in the Uniform Room and placed in employee's slot.

1

UNIFORM
MANAGER

All items with RFID tags are defined in the software.

GARMENT DROP OFF

3

Soiled garment drop off and scanned automatically.

((•))
RFID
HAMPER READING STATION

LAUNDRY

4

Soiled items "Dispatched" to laundry.

((•))
RFID
HAMPER READING STATION

Hand-held scanners take inventory in real-time.

• Reading Stations can scan up to 900 items per second in a single pass.
• All inventory accomplished without touching a single item.

MANAGE INVENTORY. REDUCE COST.
